ULTRABRIGHT USA
Cosmetic Teeth Whitening System

What Can a Brighter, & Whiter Smile Do For You?

Make a better first impression on a date, job interview, in a big sales meeting or important event.

- Brighten your pictures on special occasions such as weddings and graduations.
- Give you more confidence to close a sale, or make a new acquaintance.
- Instantly take years off of your appearance.
- Simply make you smile more

Don't Underestimate the Power of Your Smile!

Studies show that:

- 85% of people say that a Smile is the first thing they notice about someone.
- 92% of communication is non-verbal, and your SMILE has the single biggest effect on this non-verbal communication.
- Smiles are contagious and convey powerful positive emotions such as happiness, success, attitude, and self-confidence.
- A smile can give you an instant facelift, and is a gift to those around you.

FAST When we say FAST, we mean FAST. Results are achieved & measured, not in weeks, days, or even hours, but in MINUTES. The entire procedure takes only 20 minutes.

EFFECTIVE Most customers experience 2–5 shades whiter on their first application. This range is based on averages. Some customers achieve better results and some may need multiple applications to reach desired results. With multiple applications, it is very possible to get results of 8-10 shades whiter. As with all teeth whitening products, effectiveness varies depending on many individual factors.

SAFE Peroxide has been used for hundreds of years for many purposes, including teeth whitening. It is very safe. In fact, it is classified as a cosmetic product by the FDA. 99% of our customers experience no negative side effects. Our teeth whitening specialists are trained to consult with you on an individual basis to identify any potential issues you may have.

COMFORTABLE Our mouthpiece ensures the most comfortable experience during the 15 minute whitening process. All you need to do is gently bite down on the mouthpiece and relax. No need for expanders or tongue depressors like other chair-side whitening procedures. Special glasses keep the light from bothering your eyes. The procedure is so comfortable that many customers take a nap while they have it done.

AFFORDABLE Simply put, we deliver effective teeth whitening for a fraction of the cost of other professional options, and only slightly more than over-the-counter products that take weeks or months to work, if they ever do.

Multiple shades whiter in minutes!
